probably the coolest looking armor in the game. IT LOOKS AWESOME.. more loot is good. The best RPG game!  
Poland have a great company!. The base-level equipment in this DLC is approx. level 14, and the schematics for the base-level gear are in Kaer Morhen. As such, you might be over-levelled for the gear in its' base form by the time you can actually make it.

However, there's also a good chance you'll find some of the upgraded schematics before you get the base-level ones, as some of them are in Skellige and Velen. If you see a Witcher Wolf symbol using your Witcher Senses, you'll know there's an upgrade nearby for this set. For an easy-to-reach example, go to the Bloody Barons' garden, and look at the well.

It's a free DLC, so there's literally no reason not to get it anyway.. FREEEE DLC. This one is especially neat burrito. It's free, along with like, 9 or so other DLC, stop reading this and click Download, seriously, you've got literally nothing to lose by adding free content to your game, just do it already.

Maybe some companies should learn somethings from CDPR. Wonderful set of Witcher Gear. It helps to bridge some of the gaps between Griffin Gear, Feline Gear and Ursine Gear.. The grandmaster bonuses are a bit strange but look interesting.. The best armor in my opinion. i couldn't get the wolfen armor, only the bear, griffin and feline one
